

SCPPA | Q3/Q4 2026 RENEWABLES & ENERGY STORAGE RFP

CALIFORNIA / WESTERN DELIVERY POINTS • MULTI-TECHNOLOGY RENEWABLES + PAIRED STORAGE • ROLLING RFP

PROCUREMENT SIZE AGGREGATE NOT SPECIFIED	RESOURCE TYPE RENEWABLES + PAIRED STORAGE	TARGET COMMENCEMENT 2026 AND BEYOND	BID DEADLINE 30 DEC 2026 TIME NOT STATED
--	---	---	--

01 | PROCUREMENT OVERVIEW

Procuring Entity	Southern California Public Power Authority on behalf of one or more of its twelve Member Agencies
Specified Portfolio	Bidder-sized proven RPS-eligible renewable resources/products; paired storage and hybrid projects accepted. Standalone storage is excluded
Eligible Geography	CAISO, LADWP and IID BAAs plus listed Western PODs; SP15 pNodes preferred by CAISO members and specified PODs preferred by LADWP
Delivery Requirements	Bidder proposes MW, annual GWh, guaranteed capacity, COD and delivery profile; all transmission, scheduling and ancillary costs to POD included

02 | COMMERCIAL & CONTRACTUAL TERMS

Transaction Structure	SCPPA ownership; PPA with purchase option; PPA without purchase option; or alternative structure. Purchase options are strongly preferred by most members
Contract Tenor	Minimum 1 month; no maximum. Short- and long-term (>10 years), seasonal and intra-day delivery profiles may be offered
Key Commercial Terms	Preferred fixed nominal \$/MWh energy price with no escalation; paired storage priced separately. Prepayment may be considered; PPA exceptions are discouraged
Credit & Security	\$100/kW development security and \$150/kW post-COD performance security under the pro forma PPAs; proposal valid 12 months unless stated otherwise

03 | ELIGIBILITY & TECHNICAL REQUIREMENTS

Project Readiness	Show site control, permits/CEQA path, financing, interconnection status, milestones, equipment sourcing, project risks and guaranteed COD
Core Requirements	Maintain RPS/EPS compliance; Seller bears development, permitting, environmental and interconnection duties. SCPPA receives energy, RECs, capacity and RA rights
Technical Criteria	Paired storage: at least 50% of renewable interconnection MW and minimum 4-hour duration; price renewable-only and storage components separately; grid charging details required
Material Restrictions	LADWP storage only: >100 kV, TRL 7+, Buyer dispatch control, 365 annual Li-ion cycles and 98% Li-ion monthly availability. Strict no-contact and public-records rules apply

04 | CRITICAL DATES & SUBMISSION

RFP Open Period	16 Jul-30 Dec 2026; proposals reviewed within a target 30 business days and selections may occur on a rolling basis
Clarifications	Questions due 16 Dec 2026 to renewablesrfp@scppa.org; responses targeted within 5 business days and no later than closing
Proposal Submission	Electronic proposal due on or before 30 Dec 2026; no submission time is stated. Optional hard copy may accompany the electronic submission
Submission Method	Email proposal and support files to renewablesrfp@scppa.org. Prior proposals not already in negotiation must be resubmitted

05 | HOW SUNSTRIPE CAN SUPPORT

PRE-RFP DEVELOPMENT & ENGINEERING - Solar / BESS sizing and configuration - Site technical due diligence 10% preliminary engineering design - Interconnection application support	RFP SUBMISSION & BID SUPPORT - Technical proposal preparation - Bid compliance and documentation - CAPEX estimation and cost modelling - Bid engineering and submission support
