

SCPPA | 2026 STANDALONE ENERGY STORAGE RFP

CALIFORNIA / CAISO, IID & LADWP BAAs • STANDALONE ENERGY STORAGE • ROLLING RFP

PROCUREMENT SIZE AGGREGATE NOT SPECIFIED	RESOURCE TYPE ALL STANDALONE STORAGE	TARGET COMMENCEMENT 2026 AND BEYOND	BID DEADLINE 25 NOV 2026 12:00 P.M. PT
--	--	---	--

01 | PROCUREMENT OVERVIEW

Procuring Entity	Southern California Public Power Authority on behalf of its twelve Member Agencies
Specified Portfolio	Bidder-sized standalone storage; all technologies considered. Pilot/R&D and Member-territory EPC battery proposals may also be submitted
Eligible Geography	Projects located in or delivering to CAISO, Imperial Irrigation District, or LADWP balancing authority areas
Delivery Requirements	Member supplies charging energy and controls dispatch; Seller bears station-service/auxiliary load, interconnection and site obligations

02 | COMMERCIAL & CONTRACTUAL TERMS

Transaction Structure	SCPPA ownership; ESA with/without ownership option; RA-only agreement; lease with ownership option; or applicable EPC/pilot structure
Contract Tenor	General minimum 1 year, no maximum. LADWP: minimum 15 years for lithium-ion and 20 years for other storage unless specified otherwise
Key Commercial Terms	No prepayment; share current/future tax benefits and grants. ESA base price in \$/kW-month adjusts for energy, RTE and availability performance
Credit & Security	Term sheet: \$100/kW pre-COD development security and \$150/kW COD-through-term performance security via qualifying letter of credit

03 | ELIGIBILITY & TECHNICAL REQUIREMENTS

Project Readiness	Identify site control, POI/POD, interconnection status, permits, financing, milestones, guaranteed COD, augmentation and operating limits
General Requirements	Seller maintains transferable site rights and SCPPA step-in rights; bears permitting, environmental and interconnection costs; FEOC certification required
Technical Criteria	LADWP only: 50-500 MW location ranges; >100 kV interconnection; 4-hour lithium-ion or minimum 6-hour non-lithium; TRL 7+; 98% lithium-ion availability
Material Restrictions	SCPPA receives capacity, stored-energy, RA, ancillary-service and environmental attributes. Public-records exposure and strict no-contact rule apply

04 | CRITICAL DATES & SUBMISSION

RFP Open Period	28 Apr-25 Nov 2026; rolling review may lead to interviews, negotiations or agreements before the closing date
Clarifications	Questions accepted during open period; final deadline 10 Nov 2026. Responses targeted within 5 business days
Proposal Submission	Electronic proposal due 25 Nov 2026 at 12:00 p.m. PT; optional hard copy due by the same time. Proposal validity: 1 year
Submission Method	Email proposal and supporting documents to StandalonestorageRFP@scppa.org; all other procurement contact is prohibited

05 | HOW SUNSTRIPE CAN SUPPORT

PRE-RFP DEVELOPMENT & ENGINEERING - BESS sizing and configuration - Site technical due diligence 10% preliminary engineering design - Interconnection application support	RFP SUBMISSION & BID SUPPORT - Technical proposal preparation - Bid compliance and documentation - CAPEX estimation and cost modelling - Bid engineering and submission support
